

Executive Client Handover & Website Capabilities Document

Client Name: Eros Inc.

Project Name: Corporate Platform & CMS Infrastructure Migration

Tech Stack: Next.js 14 (App Router), React, Tailwind CSS, Sveltia CMS, Vercel Global CDN

Repository: github.com/erosinc-dev/erosinc-dev

Live Production URL: <https://erosinc.in> / <https://erosinc.vercel.app>

1. Executive Summary & Architecture Overview

The new Eros Inc. digital platform has been transformed from a static website into an enterprise-grade, high-performance **Next.js 14 Web Application**. The platform is engineered for maximum speed, seamless mobile responsiveness, automatic search engine optimization (SEO), and hassle-free content management.

Key Technical Highlights:

- **Sub-Second Page Load Speed:** Built using Next.js Static Site Generation (SSG), serving pages instantly through Vercel's global Edge CDN.
- **100% Mobile & Retina Optimization:** Every layout, card grid, and media player automatically scales gracefully across mobile phones, tablets, and 4K displays.
- **Dark / Light Theme Toggle:** Native theme switcher in the header for comfortable viewing in any lighting environment.
- **Modern Omnichannel Sales Positioning:** Refined terminology throughout the platform emphasizing "*Omnichannel Sales Execution*", "*Multi-Channel Brand Activation*", and "*Strategic Customer Acquisition*".

2. Platform Features & Core Pages

■ 1. Homepage (/)

- **Hero Experience:** Dynamic ambient 3D particle background canvas with high-impact value proposition ("*Ethical Sales Scale. Compete With Compassion.*").
- **Live Operational Metrics:** 4 real-time business statistics (*50+ Dedicated Team Members, 100% Internal Promotion, 4+ Core Industry Sectors, 100% Direct Customer Reach*).
- **Core Business Divisions Showcase:** Direct access cards for all 4 business verticals.
- **Practical Training & Management Program Banner:** Highlights the 30-Day Foundation Program with direct call-to-action buttons.
- **Curated Gallery Preview & News Feed:** Widescreen 6-photo group gallery preview and the 3 latest published news articles.

■ 2. Four Dedicated Business Catalogue Pages (/businesses/...)

1. **Google 360° Property Publishing** (</businesses/google-360>): Virtual tour captures, Google Maps integration, and local SEO boosting.
2. **Financial Services Distribution** (</businesses/financial-services>): Credit card acquisitions, retail banking expansion, and verified KYC compliance.
3. **Sales NGO & Donor Acquisition** (</businesses/sales-ngo>): Sustainable recurring donor pipelines and humanitarian outreach.
4. **B2B Commercial Sales** (</businesses/b2b-commercial>): Enterprise account pipelines, corporate sales negotiation, and channel partner expansion.

■ 3. Practical Management Programme (</management-programme>)

- **Curriculum Breakdown:** "Learn. Work. Grow." 30-day foundation training in Smart Selling, Business Communication, Market Analysis, and Public Speaking.
- **Our Certified Achievers Grid:** Showcases certificate ceremony photos with a centered, balanced layout for milestone achievements (*Foundation Completion, Appreciation, Excellence, Leadership Advancement, Team Building*).

■ 4. Executive Leadership & Career Progression (</leadership>)

- **Merit-Based Growth Model:** Highlights the 5-stage career trajectory from Business Associate to Business Head.
- **Leadership Profiles:** Authentic portrait cards framed with top object alignment to guarantee 100% face visibility.

■ 5. Brand Partners & Portfolio (</brand-partners> & </projects>)

- Showcase of enterprise partner alliances across Entertainment, Banking, VR Technology, and Non-Profit sectors.
- Verified project case studies and team execution milestones.

■ 6. Dynamic Team Gallery (</gallery>)

- Authentic high-resolution photo grid of real team moments, workshops, and international networking events.
- **Automated CMS Sync:** Any image published via a new CMS news article automatically appears at the top of the Gallery grid.

■ 7. Contact & Departmental Routing (</contact>)

- **Interactive Office Map:** Embedded Google Maps location for the Thane West, Maharashtra corporate head office.
- **Dynamic Departmental Email Routing:** Direct routing selector for 6 dedicated email endpoints:
 - General Inquiries: contact@erosinc.in
 - Business Partnerships: partnership@erosinc.in
 - HR & Careers: hr@erosinc.in
 - Training & Management: hello@erosinc.in
 - Information: info@erosinc.in
 - Support & Client Service: support@erosinc.in
- **Floating WhatsApp Action:** Direct instant-messaging widget linked to [+91 93244 83283](https://wa.me/919324483283) pinned at the bottom-right of every page.

3. How to Use Sveltia CMS for Regular Posts

Your website comes equipped with **Sveltia CMS**—a modern, user-friendly Content Management System running at </admin>. This allows non-technical team members to write articles, upload photos, and publish updates in under 1 minute.

■ SVELTIA CMS WORKFLOW ■

■ 1. Log in at /admin ■■> 2. Create Post ■■> 3. Hit Publish ■

■ 4. Site Auto-Rebuilds & Updates in 30 Seconds <■■■■ ■

■ Step-by-Step Guide to Publishing a News Article:

Step 1: Access the CMS Dashboard

1. Open your web browser and navigate to:

■ <https://erosinc.in/admin> (or <https://erosinc.vercel.app/admin>)

2. Click the "Log in with GitHub" button.

Step 2: Create a New Post

1. In the left navigation menu, click **News & Updates**.

2. Click the "New News & Updates" button in the top right corner.

Step 3: Fill in Article Details

Fill out the intuitive form fields:

- **Title:** The headline of your post (e.g. "Expansion into Strategic Regional Hubs").
- **Publish Date:** Select the date for your article.
- **Excerpt:** A 1-2 sentence summary that appears on news cards and homepage previews.
- **Featured Image:** Select or upload an image path (e.g. /gallery/new_event_04.jpg).
- **Body:** Write your full article text using the built-in rich text editor (bold text, bullet points, headers, links).

Step 4: Uploading New Photos

- To upload a new image directly from your computer, click the image field, choose **Upload**, and select your photo.
- Images are automatically uploaded to the <public/gallery/> directory.

Step 5: Publish!

1. Click **Publish** at the top of the editor screen.

2. Sveltia CMS will save the article directly to your repository.

3. **Automatic Deployment:** Vercel will detect the change and rebuild the live website in **~30 seconds**.

4. Your new article will automatically appear on:

- The **Homepage** (under *Latest News*)
- The **News Page** (</news>)

- The **Gallery Page** (</gallery>)

4. Maintenance & GoDaddy Domain Connection

Connecting your GoDaddy Domain to Vercel:

When ready to point your primary GoDaddy domain (erosinc.in) to the live site:

1. Log into **Vercel** $\rightarrow$ Go to **Settings** $\rightarrow$ **Domains** $\rightarrow$ Add erosinc.in.
2. Log into **GoDaddy** $\rightarrow$ Go to **DNS Management** for erosinc.in.
3. Set the following 2 DNS records:

Type	Name	Value / Points To	TTL
A Record	@	76.76.21.21	1 Hour
CNAME	www	cname.vercel-dns.com	1 Hour
